Report On Workshop on Entrepreneurship

Title : Talk on "Future cities"

Date : 22/04/2020 Venue: B.A. I.

No. of Participants : 42 Students and 06 Faculties

Speaker: Prof. Dr. J.S. Shaikh.

Report:

Cities play a central role in the growth of civilisations. Contrary to some romantic beliefs, cities promote efficient living, high standards of lawful behaviour and high standards of hygiene. Most importantly, cities provide high quality learning opportunities. They provide jobs in which one learns decade after decade. Focus on the role of technologies in improving cities leads us to smart city ideas. It is worth discussing challenges Indian cities face. Unorganized traffic, unenforced traffic rules, poor quality public transport and parking facilities, deficiencies in water supply, air and water pollution, etc. it is a long list! We have seen a few impressive examples of applications of technology improving urban quality of life. Student projects and start-ups find many low-hanging fruits in this field.
