Best Practice -1

1. Title of the practice:

Cleanliness campaign in Undale Cemetery

2. Objective of the practice:

The objective of the various activities undertaken for this are as follows

- i) To create cleanliness awareness among the students in Undale Cemetery.
- ii) To encourage the students to take steps to work on swachataabhiyan at Undale Cemetery .
- iii) To inculcate the value of cleanliness among the NSS volunteers .
- iv) To impart the value of charity among volunteers .

3. The context:

A student possesses moral values and also maintains social commitment. In view of this, our institution is planning and organizing cleanliness campaigns in Undale Cemetery. GraminShikshanSanstha, Arts and Commerce College, Undale is a small replica of the society. The cleanliness of our neighborhood and surroundings is significant for social health. The Cemetery in every village is of social and religious importance and has been completely neglected as regards to cleanliness . In view of the social culture, our institution has taken initiatives to help the community through our students in cleanliness issues much more important for the sustainable society. The students of our institution have a creative awareness about the cleanliness drive in the Cemetery .

4.The practice:

In our society, there are lots of social issues like cleanliness issues , and many more. Students should be aware of the above issues and this generation of students are young budding managers of tomorrow, they should try to give small contributions to solve these problems. The above activity will trigger to throw some light in creating awareness about the social issues. The findings of these projects will bring name and fame to the institution. The institution has a group of volunteers and with the help of these volunteers it was decided to clean the Undale cemetery. The NSS programme officer along with a few staff members and volunteers visit the cemetery and clean the place twice in a month. NSS volunteers clean the place by using broomsticks, spades and other devices like cutters, so that the grass in the Cemetery is trimmed and the place is totally cleaned. Burnt human bodies result in the rise in emission of carbon dioxide. As a result the volunteers planted many trees to maintain environmental balance and also created shade in the summer season.

5. Evidence of Success:

People of Undale village came to know the importance of the practice and they appreciated the NSS volunteers of our institution. When the decision was taken to clean the cemetery, there was no compromise as far as cleanness is concerned. People of the village have never thought of this type of practice by the students of the college. Also the people from out stations who used to come for the rituals , have also appreciated and give their complimentary remarks on the cleanliness of the Cemetery. Some of our college students have started this practice in their villages and created a positive impact of the cleanliness campaign in their place.

6. Problems encountered and Resources required:

When this practice was started, the volunteers were afraid of going to the Cemetery , especially girls students. The Cemetery is a terrible site where the clothes , shoes and other eatables have been thrown. But in course of time, all the volunteers become courageous enough to go there freely and do the cleaning campaign. Financial assistance is required to construct physical facilities in the Cemetery .

1. Title of the practice:

VachanKatta - Students Reading Platform.

2. Objective of the practice:

The meaning of VachanKatta is a common platform for creating reading habits in the institution in the leisure time. The objective of the various activities undertaken for this are as follows

- i) To inculcate and develop the reading habit amongst the students in and around the college.
- ii) To encourage the students to establish reading skills.
- iii) To provide the students an opportunity to interact with other readers
- iv) To establish the traditional teaching methods and modern innovating teaching technologies
- v) To establish the self-confidence and leadership qualities among the students

3. The context:

It is a common practice that has been observed that the students read books concerning syllabus only. The present generation of students lacks reading literature, competitive examination books and English grammar. In view of this it was decided to initiate the reading habits among the students and develop the basic reading skills among the

students. Further students are also lacking in reading the general knowledge books available in the college library.

4.The practice:

Reading platform facilities made available for all the students along with faculty members of the institution and senior citizens of the village. Many villagers are also participating in the activity provided by the college along with some authors for this particular region . In this reading platform, many exchange ideas from faculty to students and also from senior citizens takes place every time which helps the students to build their knowledge. Also the college authorities will provide general knowledge books from the library and also new arrivals from the library to the reading platform. Students read books in various areas such as autobiography, journalism, drama, cinema , one act play, novel, travels etc. The reading platform facility available in the institution has provided the participation of all the stakeholders of the institution along with authors, editors, senior citizens, Journalists etc.

5. Evidence of success:

The students participating in the VachanKatta (Reading platform) voluntarily, expressed their satisfaction over the development of reading habits among them. The students' approach towards reading books has changed and it has developed the self-confidence among them. It has also initiated the positive interaction of thoughts among the students and the ability to review books.

6. Problems Encountered and Resources required:

It is very difficult to provide the reading platform for all the students at a time. Also it has created a problem in the vacations wherein all the students want to take part in the reading platform at the time. This can be solved by making various batches of

students along with some faculty members. Further, there is a limited financial provision to purchase the books for the reading platform. As a result, some faculty members donate cash for the purchasing of books and few faculty members donate books to the VachanKatta.
